Micro SD Card Music Playing

Inserting the Micro SD Card into the speaker to enter the memory card mode, the speaker will play the Micro SD card music directly. (Speaker will voice "memory card mode"). The speaker support music format at WAV,MP3,WMA,APE,FLAC .

AUX in

Use the 3.5mm audio cable included to connect the speaker to an audio source (MP3/MP4, mobile phone).   Short press the M button to enter "AUX IN" mode (the speaker will voice "Aux in" mode). The speaker will play the music from the audio source. Please note: Low battery will affect the music

sound quality, please charge the speaker by adaptor (5V 1A) soon.

Charging

The speaker with the built-in lithium battery, use the USB cable included to connect the speaker to the computer or a branded good quality 5V/1000mA adaptor to charge the battery. When charging, the LED indicator is orange, when finished charging, the LED indicator will turn blue. Please note:(1) If low capacity, the indicator light will flash quickly, please charge immediately. (2)We recommend to charge the speaker by branded adaptor (5V 1A).

Troubleshooting

1.What should I do if the speaker can not pair with the Bluetooth device and play music accordingly?
Please check the specification/ the manual of the Bluetooth device (your mobile or computer), and check if the device can support the A2DP stereo audio transmission. If yes, please turn on the A2DP stereo mode.

2. What should I do if the Micro SD card can not work?
(1) Ensure that the Micro SD card is in good condition. Also check that the audio files are the correct formats - MP3/WMA /WAV/APE/FLAC.
(2) Besides the above case, the problem maybe the compatibility of the Micro SD card.
We recommend you formatting the Micro SD Card to FAT32 file formats.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.   This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
